

DAVID ZOHAR

Gold Coast, Australia

As a leader who optimises the contribution of project teams, I have proven capabilities in delivering infrastructure via incremental, practical transport outcomes at the right time by devising innovative, cost effective solutions.

- Managing programs comprising multiple complex projects
- Managing multiple state-wide projects to achieve challenging cost, time and quality objectives
- Mentor/Coach leadership approach for cross-functional projects across matrix-based teams
- Managing relationships with stakeholders within an organisation and with representatives from industry, community organisations, local government and other state government agencies
- Negotiating contracts with consultants and suppliers; and solutions, funding and outcomes with internal and external stakeholders.
- Results-oriented leader focused on creating personally enriching & deeply motivational working environments
